How Much
Can you
save with
StuHealth?

Are You or Your Parents Paying Twice for Your Health Insurance?

- StuHealth offers healthy full-time college students permanent, renewable, \$1 million lifetime health insurance for typically 1/3 to 1/2 the price of a school or parent policy.
- Schools automatically enroll and charge students for the school health insurance policy, even though some students have coverage from their parents policy.
- Schools charge students up to \$2,800 each year for an inferior school policy which terminates when you are not a full-time student, leaving you uninsured if you develop a medical condition.
- Your parents' health insurance policy may not provide coverage away from home, is also expensive, and terminates when you are no longer a full-time student or after you turn 22-25.

Your Current Health Insurance is Your Greatest Financial Risk

Why is StuHealth Insurance 1/3 to 1/2 the Price?

- School and parent (employer) health insurance policies accept all applicants regardless of their health, lifestyle or preexisting conditions.
- StuHealth only accepts healthy full-time students.
- Once accepted, if you become ill, your annual renewal premium cannot be increased because of your illness, and you can renew until age 65 (Medicare).
